FUNCTIONAL STRUCTURE
BIOCONTROL & IPM SECTION

Responsible for the mass production, maintenance, distribution, screening and assessment of the effectiveness of bio-control agents. Provides direction in the establishment of sustainable bio-control agents production systems in communities and undertakes field verification of IPM activities and conducts assessment of RCPCs and the network bio-control laboratories.

The slide includes a grid of small images showing people working in a laboratory or field, and various biological specimens.

Be an accredited plant nursery!
